

Foto er ikke i høj nok opløsning til tryk, og der er watermark på det med hånden. (skal nok købes)

Do not use this PDF for production printing.
The colour separations and image resolutions are not necessarily correct.
Production printing should be done from the corresponding file.

Check list

- ☒ 1:1 scale visible cutter and measurements.
- ☒ Physical or digital mockup created.
- ☒ Separations checked according to substrate and print specifications.
- ☐ Editable and outlined text layers present.
- ☐ Licenses for used assets acquired.

All colours shown in these files are a digital representation and may not reflect the true printed colours.

The prepress supplier has full responsibility for the technical details of printing.

Due to different printing methods, substrates, etc., if a barcode is present, EVERLAND cannot guarantee the barcode's scannability after printing. The printer needs to verify or replace the code to ensure scannability.
